GENERAL ABSTRACT

VICTORIA, B. C., 30th September 1873.

I, William Curtis Ward, do hereby declare that to the best of my knowledge and belief the foregoing statement a true and faithful account of the average amount of the Liabilities and assets within this Province of this Bank uring the period specified, and that the same was made up from the Weekly Statements thereof, kept in pursuance the Provisions of the "Banking Act 1864." Declared before me at Victoria, B. C. this 3rd day of October, 1873. co4 (Signed)

THE U.S. GOVERNMENT AND THE MODOCS .- A

Washington dispatch of October 5th says :-

The Secretary of War, after consultation with

bodying his decision will be issued this

week. It is thought the worst members of the band will be confined at Alcatraz, and

the others placed on some reservation under

the watchful eye of the military. The State

authorities of Oregon insist upon the surren-der of certain members of the band, to be

tried by the Courts of that State, on the charge of murder and robbery; but it is

to this request. At the time of their surren-

der they were demanded by the Oregon authorities. It was first urged in opposition,

in official circles, that the President having pardoned as prisoners of war, the Govern-

ment was bound to treat them as such and to

protect them from the State authorities ; and

the Secretary of War, in conversation on the

subject to-day, declined to say what disposi-

tion he had decided to make of them, merely

saying that information would be given in

The Pacific Cable Project. -Configuration and Depth of the Bed of the Worth Pacific-Cruise of the U.S.S. Tuscarora.

We are indebted to a gentleman on board three days' work. of the United States ship Tuscarora for the | LIGHTNING CREEK .- The Hunter co. have information given below relative to the soundings now being prosecuted with a view of co. made expenses last week in their upper This was a suit to recover wages alleged to by due. The plaintiff (Rudolph Samaman) obtaining data for the projected submarine shaft; have been working in the face in the was employed by Captain Clarke as a deck hand on board the steamer Sir James Dougtelegraph cable between the coast of this lower shaft this week. Point co. are putting shore. The intelligence will be new and inGladstone co for the season; expect to have of the 22nd of said month, as the steamer valuable to science, and we have no doubt the engine on the ground in two weeks and orders had been given to cast off the lines, the plaintiff informed the Captain that will be perused with interest by readers washed up last week 2621 oz., and up to Wed three Indians, employed as hands on the vessel, were not on board, and grumbled at the vessel leaving without them, intimating at

U. S. S. TUSCARORA. ESQUIMALT, B. C., Oct. 11, 1873. } TO THE EDITOR OF THE VICTORIA STANDARD : Sin :- The following is a brief account of

the late trip of the Tuscarora :-We took our departure from Cape Flattery n the morning of the 17th ult., and between that time and the 30th ult. ran a distance of 114 miles on the great circle route between Cape Flattery and Atcha in the Aleutian

fathom line, more for the purpose of thoroughly testing the working of our apparatus than for any other reason. When at a distance of 207 miles from Cape Flattery the the President, has decided upon the disposi-tion to be made of the Modocs belonging to the late Captain Jack's band. An order emlepth of water suddenly decreased from about 000 fathoms to less than 600 fathoms, showing the existence of a submarine mountain nearly 2500 feet in height. From this mountain to the position of our last cast, we found the surface of the ocean bed to increase in depth in a ratio of about a fathom to a mile The last cast was in a depth of 2534 fathoms, in latitude 53° 58':N., longitude 153° 00' west; then having but a small amount of coal on hand we put back for this port. Our apparatus worked admirably. Sir doubtful whether the Government will accede Wm. Thompson's machine with fine piano wire, is, undoubtedly the best apparatus for

sounding purposes now known. I think there is no other material with which the depth can be accurately ascertained as with wire-it goes straight down, and as it presents but a small surface to the action o the water there is but little friction, and as soon as the sinker strikes the bottom the fact is instantly indicated by the dynamometer

attached to the apparatus. At each east specimens of the ocean bed and of the under surface water were brought within a few feet of the ocean bed. At each cast boats were sent away from ness on hand. days before the sailing of the steamer Costa

the ship, and the set and strength of the Rica, from Henolulu, on her last, says the under surface and surface currents determined. We will proceed to Nanaimo to morrow for coal, and will put to sea again with as little delay as possible, and will sound as much

further to the westward as we can before the winter gales set in. Washington Territory.

Mr. Piper, from Victoria, is setting in operation a candy factory and general confectionery establishment in Seat le. The total assessment of San Juan Island is

It is said there are only about three British subjects on the lately disputed islands, who hold land and have not declared intentions to become citizens-one on San Juan, one on ches of October 5th, from Washington, in the Lopez, and one on Orcas.

Governor Ferry delivered his message before the Legislature of Washington Territory on Thursday forenoon. The time occapied property, including their individual property and that of their wives, to Mr. Rollins in in its delivery was only forty minutes, and it is spoken of as an able document.

The question of giving \$200,000 in county bonds to aid in the construction of a broad guage road from Tenino to Olympia, was voted on favorably, resulting in a return of

The Canadian Scandal.

[From the S. F. Bulletin, October 2, 1873.]

The investigation which has been dragging along for three or four weeks at Ottawa closed yesterday. This as our readers will remember, was an inquiry by a Royal Commission into the charges made against Sig John A. Macdonald, Premier of Canada, and members of his Cabinet, of corruption in connection with the Canada Pacific Railroad akin to that of Oakes Ames' Credit Mobilier waters of the Pacific Ocean. As will be seen There have been indications throughout the by notice elsewhere, Thusday next is the day inquiry that the whitewashing process would be resorted to, and it is generally expected that a report will be presented analogous to that of our Congressional Committee's report in February last. Some very strange things have been developed during the inquiry.

Among other matters it was shown that the secrecy of the postoffice had been violated. Then, strangely enough, telegraph companies which had been supposed to preserve a record of their messages for years were found to have adopted a new system within the last few months, and destroyed messages which were six months old. The mest important witnesses, also, were not fortneoming, and above all, Mr. McMullen, of Chicago, who claimed to have advanced Sir John A. donald the money, could not be found. It is not likely that the people of Canada will be satisfied with this investigation by the Com-mission, and a strong effort is certain to be made in Parliament to continue that already commenced by the House of Commons, after a provision has been made empowering the Parliamentary Committee to take testimony inder oath.

The Royal Commission.

TWENTY-FIRST DAY'S PROCEEDINGS. OTTAWA, Sept. 30 .- The Royal Commissio

met at eleven o'clock on Saturday, and there being no witnesses present, adjourned unti two o'clock.

At two o'clock the Commission met again, and Hon. J. J. C. Abbott being present his deposition was confirmed. The following additions were made at Mr. Abbotts request Sir Hugh Allan had told bim (Mr. Abbott that he (Sir H. Allan) refused the fort thousand dollars advanced by the Americans and he (Mr. Abbott) had seen a letter from General Cass acknowledging the receipt of

the money. He had observed in Mr. White's evidence given on the previous day that he, (Mr. Abbott) had shown to Mr. White the draft of bill, which Mr. White supposed had be prepared by Mr. Abbott. As Mr. Abbott had already stated, this draft was the one given to him by Sir Hugh Allan, and was the basi of the legislation for the Canada Pacific Railroad Company.

The Commission thereupon adjourned until

noon on Monday. TWENTY-SECOND DAY'S PROCEEDINGS.

The Commission met at noon yesterday and there being no witnesses present, adjourned until two o'clock, when Mr. Sandford Fleining being present, his deposition was con-firmed and signed. The Commission then

The main fact in the matter, however, is the existence of a Baltimore vessel about that time mentioned

John Stuart Mill's Last Essay.

The London Examiner for July 19th, contains the last article written by Mr. Mill. It is entitled "The Right of property in Land."
Mr. Mill thus vindicates the principle of unearned increase :

If the tenant had added anything to the value of the land beyond the duration of his tenancy, the landlord should be bound to purchase the improvement, whether permanent or temporary, at its fall value. If the nation at large by their successful exertions to increase the wealth of the country, have en-hanced the value of the land independent of anything done by the landlord or tenant, that he never had any controversy with Conway and has not the slightest idea of the cause of his attack.

NEW YORK, Oct. 11.—Geo. A. Clarke, son of ex-Mayor Clarke of this city, cashier and agent for the Union Pacific Railroad, is missage that the principles of the second to the cause of the second to t last month. He has heretofore borned a re-spectable character and it is supposed he has prover or not. The growth of towns, the extension of manufactures, the increase of population consequent on increased employment create a constantly increasing demand for land both for the habitations of the people and for the supply of food and the materials of clothing. They also seems of clothing. They also create a constantly increasing demand for coal, iron and all the other produce of mining industry. By this increase of demand the laudlord proprietors largely profit, without in any way contributing to it. The income from rural lands has a constant tendency to increase, that from building lands still more; and with this increase of their incomes the owners of the land have nothing to do except receive it. The Land Tenure Reform Association claim this increase for those who are its real authors. They do not propose to deprive the landlords the contract rents not of anything which they may hereafter add to those rents by their own improvements. The future unearned increase is what the association seeks to withdraw from them, and retain for those to whose labors and sacrifices, from generation to generation, it will really be due.

The means by which it is proposed to accomplish this is

complish this is SPECIAL TAXATION.

Over and above the fair share of the landlords Granite Baker's all sizes, in the general taxation of the public, they Granite Oval Platters, all sizes. be understood, also, that no intention is en- 10 cases Lamp Chimnies, asst. sizes, tertained of paring down the increment of rent to the utmost farthing. We assert in principle the right of taking it all; in practice we have no desire to insist upon the extreme right, at any risk of going beyond it. No doubt the option allowed to the landlord of giving up the land at its existing value would secure him against pecuniary wrong, but we should be sorry to trade upon his reluctance to give up en ancestral possession of one endeared to him by association. We would leave, therefore, an ample margin by mitted with same at a sacrifice of liberty of the way of insurance against mistakes in the man in matters of work, education and reli-institution. We would not insist upon taking man in matters of work, education and retagious views. The laws of this country do
not recognize monastic orders, nor permit
we maintain that within that limit of taxation
we maintain that within that limit of taxation

CRATES on the land, in addition to the landlord's share of all other taxes, may justly be, and ought to be, imposed.

EUROPE.

Panis, Oct 12.—The Count de Chambord was at Salzburg to-day and visited the Grand Duke of Tuscany. He received a deputation from France; what reply he gave the deputation is unknown, but he will probably reach this city by the middle of the week.

PROVENCIAL SECRETARY'S OFFICE, 25th September, 1873.

THE Lieutenant-Governor in Council directs the publication of the following

Br Command.

JOHN ASH,

Provincial Secretary.

Protocol signed at Washington on the 10th of March, 1873, defining the Boundary Line through the Canal de Haro, in accordance with the Award of the Emperor of Germany of October 21, 1872.

WHEREAS it was provided by the 1st Article of the Treaty between Great Britain and the United States of America, signed at Washington on the 15th of June, 1846, as follows :-

Josef W MARTICLE L.

"From the point on the 49th parallel of north latitude where the boundary laid down in existing Treaties and Conventions between Great Britain and the United States terminates, the line of boundary, between the territories of Her Britannie Majesty and those of the United States, shall be continued westward along the said 49th parallel of north latitude, to the middle of the channel which separates the Continent from Vancouver's Island; and thence southerly through the middle of the said channel, and of Fuca's Straits, to the Pacific Ocean; provided however, that the navigation of the whole of the said channel and straits, south of the 49th parellel of north latitude, remain free and open to both Parties."

And whereas it was previded by the XXXIVth Article of the Treaty between threat Britain and the United States of America, signed at Washington on the 8th of May, 1871, as follows:—

ARTICLE XXXIV.

"Whereas it was stipulated by Article I of the Treaty concluded at Washington on the 15th of June, 1846, be-tween Her Britanuic Majesty and the United States, that the line of boundary between the territories of Her Britween Her Britanuic Majesty and the United States, that the line of boundary between the territories of Her Britannic Majesty and those of the United States, from the point on the 39th parallel of north latitude, up to which it had already been ascertained, should be continued westward along the said parallel of north latitude to the middle of the channel which separates the Continuent from Vancouver's Island, and thence southerly through the middle of the said channel and of Fuca Straits to the Pacific Ocean, and whereas the Commissioners appointed by the two High Contracting Parties to determine that portion of the boundary which runs southerly through the middle of the channel aforesaid were unable to aggree upon the same; and whereas the Government of Her Bratannic Majesty chains that such boundary line should, under the terms of the Treaty above recited, be run through the Isosario Straits, and the Government of the United States claims that it should be run through the Government of Her Britannic Majesty, and of the Government of the United States shall be submitted to the arbitration and award of His Majesty the Emperor of Germany, who, having regard to the abovementioned Article of the said Treaty, shall decide thereupon, finally and without appeal, which of those claims is most in accordance with the true interpretation of the Treaty of June 15, 1846."

And whereas His Majesty the Emperor of Germany has by his award dated 21st of October, 1872, decided that "Mit der rightigen turlegung der zwischen den Regierangen Ihre Britischen Majestat und der vere inigten Staaten von Amerika gescholssenen Vertrages de dato Washington den 18ter Juni/1856, steht der Ansprugh der Regierung der Vereinigten Staaten am missien im Einlange, drasselle Grenzlinie zwischen den Gebeten Ihrer Britischen Majestat und den vereinisten Staaten Majestat durch Britischen Majestat und den vereinigten Staaten durch den Hare Kanel gezogen werde."

The Undersigned, the Right Honorable Sir Edward hornton, one of Mar Majesty's Most Honorable Privy Council, Knight Commander of the Most Honorable Or-Council, Knight Commander of the Most Honorable Order of the Bath, Her Britannic Majesty's Envoy Extraordinary and, Minister Pienipotentiary to the United States of America, and Rear Admiral James Charles Prevost, Commissioner of Her Britannic Majesty in respect of the boundary aforesaid, and Hamilton Fish. Secretary of State of the United States, duly anthorized by their respective Governments to trace out and mark on charts prepared for that purpose the line of boundary in conformity with the award of his Majesty the Emperor of Germany, and to complete the determination of so much of the boundary line Between the possessions of Great Britain and the territory of the United States, as was left uncompleted by the Commissioners heretofore appointed to carry into effect the Ist Article of the Treaty was left uncompleted by the Commissioners heretofore appointed to carry into effect the 1st Article of the Treaty of 15th of June 1846, having met together at Washington and have traced out and marked the said boundary line on four charls, averally estitled "North America, West Coast, Strait of Juan de Fuca, and the channels between the Continent and Vancouver Island, showing the Boundary Line, between British and American Possessions, from the Admiralty Surveys by Captains II, Kellet, R. N., 1847, and G. H. Richards, R. N., 1858-1862;" and having on examination agreed that the lines so traced and marked on the respective charts are identical, they have severally signed the said charts on behalf of their respective Governments, two copies thereof to be retained by the Government of the United States, to serve with the "Definition of the Boundary Line" attached hereto, showing the general bearings of the line of boundary as laid down on the charts, as a perpetual record of agreement between the two Governments in the matter of the line of boundary between their respective dominions, under the lat Article of the Treaty concluded at Washington on the 15th of June, 1856. was left uncompleted by the Commissioners heretofo appointed to carry into effect the 1st Article of the Trea

In witness whereof, the undersigned have signed this Protocol, and have bereunto affixed their

Definition of the Boundary Line.

British and the United States' Possessions is laid down is entitled "North America, West Coast, Strait of Juan de Fuca, and the Channels between the Continent and Vancouver Island, showing the Boundary Line between British and American Possessions, from the Admiralty Surveys by Captains H. Kellett, R.N., 1847, and G. H. Richards, R. N., 1858-1862."

The boundary line thus laid down on the chart is a black line, shaded red on the side of the British Possess-ions, and blue on the side of the Possessions of the United States.

The boundary line thus defined commences at the point on the 49th parallel of north latitude on the west side of Point Robarts, which is marked by a stone monument, and the line is continued along the same parallel to the middle of the channel which separates the Continuent from Vaucaut of a Island, that is to say, to a point in longitude 425° 15° 16" west, as shown on the said

It then proceeds in a direction about 50° east (true rabout 15 geographical miles, when it curves to the) outhward passing equidistant between the west point of atom Island and the east point of Saturna Island until point midway on a line drawn between Turu Point Stewart Island and Fairfax Point on Moresby Island on Stewart Island and Fairfax Point on Moresby Island bears south 68° west (true), distant 10 miles, then on a course south 68° west (true) of limites to the said point midway between Turn Point on Stewart Island and Fair fax Peint on Meresby Island, thence on a course about south 12° 30° east (true) for about 83° miles to a point due east 1 miles from the northerimnest kelp reef, which reef on the said chart is laid down as in latitute 48° 33° north and in longitude 123° 15′ west; then its direction continues about 50° 13° cast (true) 63°, miles to a point midway between Sea Bird Point on Discovery Island and Pile Point on San Juan Island, thence in a straight line south 43° cast (true) until it touches the north end of the middle bank in between 13 and 18 fathoms of water; from this point the line takes a general south 18° 40′ west direction (true) for about 10 miles, when it reaches the centre of the fairway of the Strait of Ju n de Frea, which by the chart is in the Istitude of 48° 17′ north and longitude 123° 14′ 40° west.

Thence the line runs in a direction south 73° west (true) for 12 miles to a point on a straight line drawn from the light-house on Race Island to Augelos Point midway between the same.

Thence the line runs through the centre of the Strait of Juan de Fuca, first, in a direction north 80° 30 west about 5½ miles to a point equidatant on a straight line between Beechey Head on Vancouver Island and Tongas Foint on the shore of Washington Territory; second, in a direction north 76° west about 13½ miles to a point a direction north 76° west about 13½ miles to a point of Vancouver Island and Pfilar Point on the shore of Washington Territory; in a direction north 68° west about 30½ miles to the Pacific Ocean at a point eqidistant between Benilla Point on Vancouver Island and Tatooch Island lighthouse on the American shore, the line between the points being nearly due north and south (true).

The courses and distances as given in the foregoing description are not assumed to be perfectly accurate, but are not assumed to be necessary ton practical definition of the line hald down ou the chart and in-
